

Office 365 Partner Managed Services

Discover & Audit

What We Do

Our Office 365 Managed Services provide you with all the Office 365 support needed. Our packaged services allow you to keep your internal IT team focused on your corporate goals while we take care of your tenant with our 24/7 service desk

Our Discover & Audit service is an insurance policy for your Office 365 allowing the monitoring of all internal and external access and security activity to isolate events or threats quickly

Office 365 Discover and Audit is part of a suite of Office 365 managed services available through your reseller partner of choice for a low and manageable monthly fee

Office 365 Discover And Audit

Service

Our Discover and Audit service is an insurance policy for your Office 365 tenancy. Among other things, we provide you visibility into every file modified, every login attempt, every password change, every mailbox accessed – including when, where from, and by whom. This Discover and Audit service can be subscribed to over 12, 24 or 36 months
